VOL. 64 NO. 1

10 DECEMBER 1996

<i>Leucaena</i> forage analysis using near infrared reflectance spectroscopy R.A. Wheeler, W.R. Chaney, K.D. Johnson and L.G. Butler (West Lafayette, IN, USA)	1
The effect of protein supplement source or supply pattern on the intake, digestibility, rumen kinetics, nitrogen utilisation and growth of Ethiopian Menz sheep fed teff straw M.L.K. Bonsi, A.K. Tuah (Kumasi, Ghana), P.O. Osuji, V.I. Nsahlai and N.N. Umunna (Addis Ababa, Ethiopia)	11
The effect of roughage to concentrate ratio in the diet on nitrogen and purine metabolism in dairy cows H.L. Gonda, M. Emanuelson and M. Murphy (Uppsala, Sweden)	27
Effects of feeding propylene glycol to mid-lactating dairy cows G. Cozzi, P. Berzaghi, F. Gottardo, G. Gabai and I. Andrighetto (Legnaro, Italy)	43
Effects of niacin on milk yield, milk composition, and blood components of dairy cows in hot weather N.G. Belibasakis and D. Tsirgogianni (Thessaloniki, Greece)	53
Prediction of the energy value of rabbit feeds varying widely in fibre content J. Fernández-Carmona, C. Cervera and E. Blas (Valencia, Spain)	61
Multiphasic analysis of gas production kinetics for in vitro fermentation of ruminant feeds J.C.J. Groot (Wageningen, The Netherlands), J.W. Cone (Lelystad, The Netherlands), B.A. Williams (Wageningen, The Netherlands), F.M.A. Debersaques (Gent, Belgium) and E.A. Lantinga (Wageningen, The Netherlands)	77

VOL. 64 NOS. 2–4

FEBRUARY 1997

Influence of oilseeds in combination with vitamin E supplementation in the diet on backfat quality of pigs G. Flachowsky (Braunschweig, Germany), F. Schöne, G. Schaarmann (Jena, Germany), F. Lübke (Cuxhaven, Germany) and H. Böhme (Braunschweig, Germany)	91
Nutrient utilization and rumen fermentation pattern in crossbred cattle fed different planes of nutrition supplemented with urea molasses mineral block S. Toppo, A.K. Verma, R.S. Dass and U.R. Mehra (Izatnagar, India)	101
Effects of protease inhibitors on degradation of H ₃ [¹⁴ C]-casein by ruminal microorganisms M.A. Ramirez Piñeres, W.C. Ellis, G. Wu and S.C. Ricke (College Station, TX, USA)	113
In-vitro assessment of fat supplements for ruminants S.K. Gulati (Blacktown, NSW, Australia), T.W. Scott (Sydney, NSW, Australia) and J.R. Ashes (Blacktown, NSW, Australia)	127
The feasibility of replacement of grain by tapioca in diets for growing-fattening cattle Z. Holzer, Y. Aharoni, V. Lubimov and A. Brosh (Haifa, Israel)	133

Rumen contents and ruminal and faecal particle size distribution in steers fed a mixed diet at three amounts of intake P.L. Kovács, K.-H. Südekum and M. Stangassinger (Kiel, Germany)	143
Digestion of fresh perennial ryegrass fertilized at two levels of nitrogen by lactating dairy cows J.L. Peyraud, L. Astigarraga and P. Faverdin (Saint Gilles, France)	155
Physical quality of pelleted animal feed. 2. contribution of processes and its conditions M. Thomas, D.J. Van Zuilichem and A.F.B. Van der Poel (Wageningen, Netherlands).	173
Effect of concentrates in a hay diet on the contribution of anaerobic fungi, protozoa and bacteria to nitrogen in rumen and duodenal digesta in sheep G.J. Faichney, C. Poncet, B. Lassalas, J.P. Jouany, L. Millet, J. Doré and A.G. Brownlee (St Genès-Champanelle, France).	193
Digestive utilization of concentrated and fibrous diets by two peccary species (<i>Tayassu peccari</i> , <i>Tayassu tajacu</i>) raised in French Guyana P. Comizzoli, J. Peiniau (Saint Gilles, France), C. Dutertre (Le Rheu, France), P. Planquette (Kourou, Guyana) and A. Aumaitre (Saint Gilles, France)	215
Studies on in situ degradation of feeds in the rumen: 1. Effect of species, bag mobility and incubation sequence on dry matter disappearance J.A. Huntington and D.I. Givens (Stratford-upon-Avon, UK)	227
Assessment using sheep of the nutritive value of liquid potato feed and partially fried potato chips (french fries) J.A. Rooke (Aberdeen, UK), A.R. Moss (Stratford, UK), A.I. Mathers (Aberdeen, UK) and R. Crawshaw (Ramsey, UK)	243
Changes in extract viscosity, amino acid content, and soluble and insoluble β -glucan and dietary fibre content of barley during different high moisture storage conditions B. Svihus (Ås, Norway), C.W. Newman, R.K. Newman (Bozeman, MT, USA) and I. Selmer-Olsen (Ås, Norway)	257
Effect of borage meal on nutrient digestibility and performance of ruminants and pigs A.F. Mustafa, J.J. McKinnon, P.A. Thacker and D.A. Christensen (Saskatoon, Sask., Canada).	273
Supplementary feeding value of urea-treated olive cake when fed to growing Awassi lambs R.A.M. Al Jassim (Irbid, Jordan), F.T. Awadeh (Amman, Jordan) and A. Abodabos (Irbid, Jordan)	287
Digestibility of dried and toasted peas in pigs. 1. Ileal and total tract digestibilities of carbohydrates N. Canibe and K.E. Bach Knudsen (Tjele, Denmark).	293
Digestibility of dried and toasted peas in pigs. 2. Ileal and total tract digestibilities of amino acids, protein and other nutrients N. Canibe and B.O. Eggum (Tjele, Denmark).	311
Effect of fiber source and a yeast culture (<i>Saccharomyces cerevisiae</i> ¹⁰²⁶) on digestion and the environment in the rumen of cattle M.L. Roa V., J.R. Bárcena-Gama, S. González M., G. Mendoza M., M.E. Ortega C. and C. García B. (México City, Mexico)	327
Short Communication	
Comparative response of broiler chicks to a high fibre diet supplemented with four antibiotics A.A. Onifade and G.M. Babatunde (Ibadan, Nigeria).	337
Book Reviews	
Basic animal nutrition and feeding.	343
Animal nutrition	345
